

About BioAssayLINK

- first online R&D matching tool for the biopharmaceutical industry
- established in 2006
- more than 2000 expertise and capabilities
- companies, large and small from all around the globe have used our online tool to find their laboratory and consultant options that match their needs
- entry of your expertise and capabilities is simple and effective
- cost effective

Our vision

To be the global online leader linking the services and expertise of specialized laboratories with those individuals, teams and organisations involved in discovery, development and delivery of new healthcare products.

Biomedical researchers

Are you interested in working with industry to enhance your research profile and secure extra research funds for your research programs?

Collaboration, partnering or contract research? The decision is yours.

Now more than ever industry needs your expertise and know-how. Companies involved in discovering and developing new therapeutics have embraced external collaboration as being the smartest and most efficient way to bring new therapeutics to patients. In this new collaborative model all players involved are winners, not just the biopharmaceutical companies.

Do you know what the number one problem industry has in connecting with your expertise and know-how? Finding you in a timely and efficient manner. There is just too much unfiltered and unqualified information out there for industry to find you quickly and in a cost-effective manner. If you want to be found, make it easy for them by using BioAssayLINK's global online linking tool.

Some of our clients

- Akebia Therapeutics
- Apredia
- Athlomics
- Australian Tissue Engineering Centre
- Baker IDI Heart and Diabetes Institute
- Bio21
- BioAssay Systems
- BioChem GmbH
- BioFocus
- Biomarker analysis and translational research facility
- Biomodels
- Biotech Clarity Consulting
- BIOVAYS
- Biovite Australia
- Colucid Pharmaceuticals
- DF Pre-clinical Services
- Epistem
- ESR
- Heart Research Institute
- Innovotech
- Irish Drug Delivery Network
- Johnson and Johnson Research
- Kronos Sciences
- MerLion Pharmaceuticals
- National University of Singapore
- NovaBiotics
- Prescient Medical
- Queensland Institute of Medical Research
- RMIT Drug Discovery Technologies
- Sapient Discovery
- Select Vaccines
- TetraQ
- The University of Queensland
- Trinity Bioactives
- Unilever Research and Development UK

- Wit Creek Consulting

Getting started for biomedical researchers

Step 1

Call your sponsored research, contract research or commercialization department to see if your research institution has an agreement with BioAssayLINK. If they do, contact BioAssayLINK directly and we will get you started.

Step 2

If your institution doesn't have an agreement with BioAssayLINK then you can ask the relevant person at your institution to contact BioAssayLINK and we will start the process to get them signed-up with us.

Step 3

If neither of the above options work for you take the initiative yourself and sign-up using the Biomedical Researcher portal on our website.
